EXPERIENCE

AMERICAN EXPRESS | Apprentice (Enterprise Technology Services) Bengaluru | Jan 2026 - Present

- Engineered CI/CD pipelines in Jenkins for Apache Spark workloads, automated deployments using Ansible, and integrated Oozie for workflow orchestration.
- Refactored a legacy Java/Spring application by migrating database access logic, SQL queries, and Oracle JDBC datasource configurations into dedicated service layers, improving modularity and maintainability.
- Built and integrated RESTful services using the Spring Framework, enabling communication across client, service, and DAO layers while improving code maintainability and scalability.

RAPTEE HV | Software Engineer Intern

Chennai | June 2025 - August 2025

- Integrated optimized API endpoints for detecting nearest EV charging stations, reducing response time to <0.6 ms and improving overall system efficiency.
- Designed and developed a full-stack map application using Node.js, React.js, Tailwind CSS, and MapLibre GL. Integrated multiple routing/navigation providers for side-by-side route comparison in a single interface and deployed on Zoho Catalyst, enhancing decision-making for internal teams.
- Built the entire backend architecture for Deepview, a session-based authentication system, and engineered 25+ secure API endpoints to strengthen reliability, scalability, and access control.
